

Directions for use:

1) Print out all sheets at full size without any reductions.

a) Ensure the margins on your printer are  $\frac{1}{2}$ " or less.

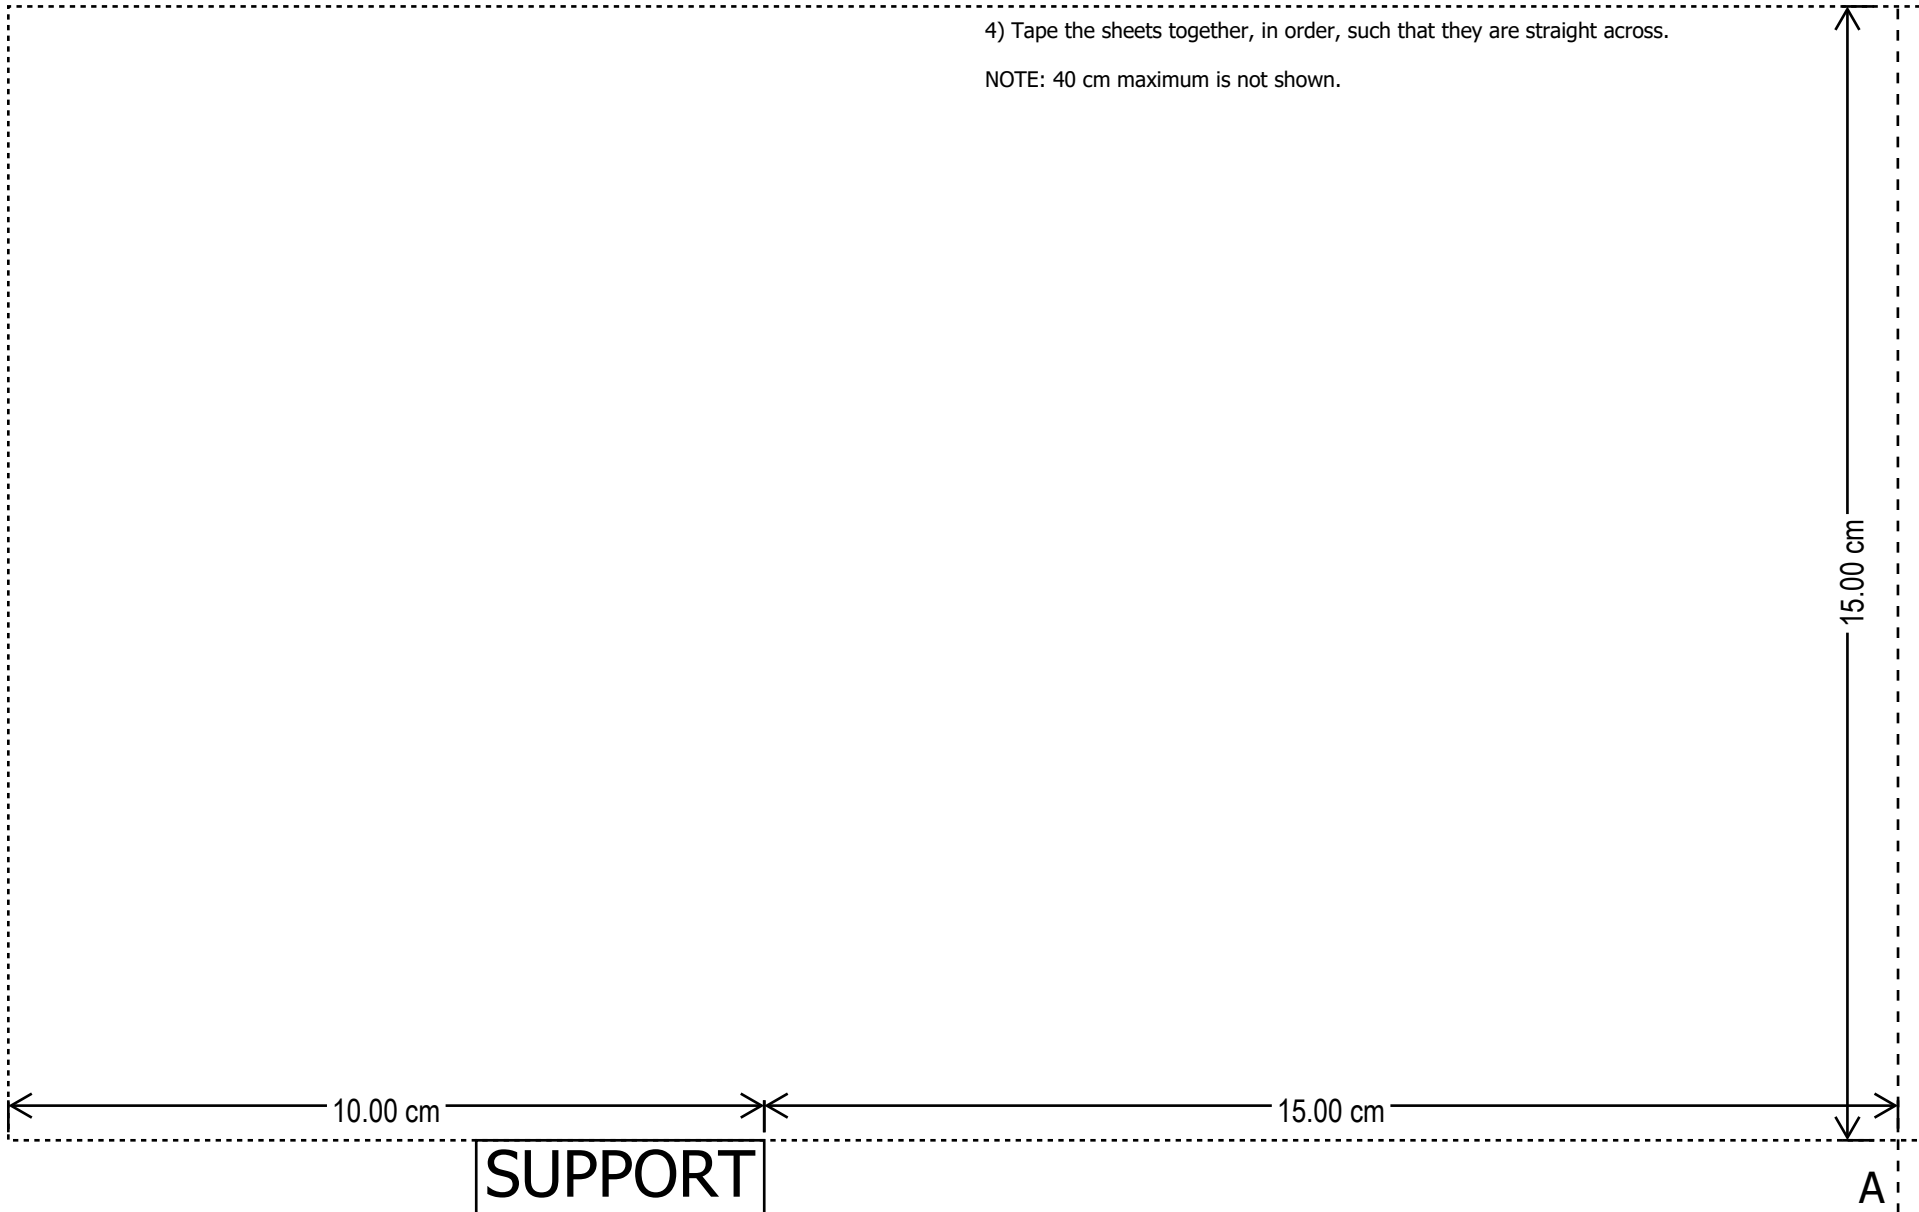

b) You can check the scaling of the printed sheet by measuring the dimensions on each sheet.

2) Cut the portions of each sheet indicated off.

3) Line up the pages such that each letter matches on the other side of the indicated line. For example, "B" should match up with "B".

4) Tape the sheets together, in order, such that they are straight across.

NOTE: 40 cm maximum is not shown.
