

Directions for use:

- 1) Print out all sheets at full size without any reductions.
 - a) Ensure the margins on your printer are $\frac{1}{2}$ " or less.
 - b) You can check the scaling of the printed sheet by measuring the dimensions on each sheet.
- 2) Cut the portions of each sheet indicated off.
- 3) Line up the pages such that each letter matches on the other side of the indicated line. For example, "B" should match up with "B".
- 4) Tape the sheets together, in order, such that they are straight across.
